Manufacturer Of Quality Metal Roofing

7 REASONS WHY
Deluxe Super RIB 100 is Better!

- ***BARE STEEL***
  Super Rib 100 is manufactured from only 28 gauge, 80,000 minimum PSI bare steel with a minimum .0157 thickness before paint to assure you of a thick, strong panel.
- ***GALVANIZATION*** (2 layers)
  Super Rib 100 has up to 10 oz. of zinc protection, resulting in up to 67% more corrosion protection.
- ***ZINC PRE-TREATMENT:***
  (2 layers) Prepares the surface for paint while adding additional corrosion resistance.
- ***SEALER COAT:***
  (2 layers) Seals the zinc pre-treatment and smooths the surface to receive the paint.
- ***THICK PRIMER COAT:***
  (2 layers) Prepares the surface for consistent color application while adding even more corrosion protection.
- ***BACKER COAT:***
  Full coat backer in off-white for consistency inside the building.
- ***TOP COAT:***
  Premium HDPE (Highly Durable Polyester) Cool Roof Colors with excellent color retention & durability—32 colors available.
